WEEK'S TRAJECTORY

- Introduce the command line
- Introduce source code management
- Review basics of HTML
- Introduce programming concepts
- Build, and deploy, a Ruby on Rails application

WHAT TO EXPECT

- Lots of hands-on activities
- Lots of new concepts
- Humorous pictures
- Your brain *might* hurt at some point

NO SERIOUSLY...

- Take a walk
- Browse reddit (/r/aww)
- Play a game...Hearthstone anyone?

GROUND RULES

- Asking questions is a “super power”
- If you need a mental (or other break), take one
- Writing software is a collaborative endeavor

CODE OF CONDUCT

- We are dedicated to creating a safe, respectful, and collegial learning environment for the benefit of everyone who attends.

OTHER IMPORTANT STUFF

- Coffee
- Lunch
- Supper

INTRODUCTIONS

- What is your name?
- What institution are you from?
- What is one thing you want to learn this week?
- What is one wild prediction about the best possible outcome?
